WHOLESALE LIST TO MARKET GARDENERS

Purchasers of LARGE QUANTITIES of SEEDS are entitled to the LOWEST PRICES consistent with QUALITY for

SEEDS WHICH SUCCEED

MARKET GARDENERS Are asked to mail us their orders, assured no better Seeds can be obtained from any source. We ask our old customers to **increase their orders**, and we ask **all readers** of this Priced List who are **not purchasers** to send a trial order.

Our **practical experience** in the cultivation of wide breadths of many sorts of Market Garden Vegetables for Seed gives us the special advantages of a close observation of relative merit.

LANDRETHS' is the Oldest Seed House in America. Founded in 1784, or 126 years ago.

VITALITY TESTS Every lot of Seed sent out by the Landreths is first tested in a greenhouse to determine how many Seeds sprout out of one hundred. The vitality or germinative tests of past year numbered over 30,000. The Trial Ground Tests to determine Quality numbered 7,000, consequently the Landreths are perfectly familiar with the Seeds they distribute.

LANDRETHS' RED ROCK, THE BEST OF ALL SORTS. \$3.00 per pound

We ask your trade and will give you

At these especially low prices, NO ORDER WHATEVER will be accepted unless accompanied by cash or Postal Order.

The United States Mail brings Landreths' Seeds to every Man's Post Office

LANDRETHS' RED ROCK TOMATO

A Market Gardener's variety, extraordinarily solid, smooth as an Apple, red as it is possible to be. No sort is its superior in texture or flavor. A very heavy producer and an excellent shipper, twenty tons having been grown to the acre. Recommended especially to Market Gardeners and Planters for Canning Factories as very showy and productive. **UNDOUBTEDLY THE FINEST LARGE RED TOMATO NOW IN USE.**

BERMUDA ONION SEED—Including Crystal White Wax.

The Bermuda White Onion is so astonishingly early in development as to be almost miraculous. Seed sown same time in the spring as White Portugal, Yellow Danvers, or any other sort, will produce Onions 2½ to 3 inches in diameter before the others are one inch in diameter. The mature bulbs are white, waxy, flat and so mild as to be unusually palatable. Any party growing Bermuda Onions can have them three weeks ahead of White Portugal, seven weeks ahead of Danvers.

Red Bermuda, \$2.10 pound. White Bermuda, \$2.25 pound. Crystal White Wax, \$4.00 pound.

Market Gardeners will realize **Big Profits** by sowing Seed of the **Bermuda Onion**, the bulbs of which develop almost with the rapidity of **Radishes**. Nothing in this or any other Catalogue will give greater satisfaction or bring a larger Cash return. Write us about Bermuda Seed for next September.

Bermuda Onion Seed can be sown to great advantage as a spring crop in any Onion district, where they will ripen away ahead of all others. **TRY SOME**, and it will astonish the natives.
